**HOPE SPRINGS CHRISTIAN
LEARNING CENTER**

The Hope Springs Christian Learning Center educational program provides an optimum learning experience for children with learning differences. Trained by the National Institute for Learning Disabilities (NILD), our teachers utilize a multi-sensory learning environment with a small student to teacher ratio. We offer specialized educational therapy for children that struggle in a traditional classroom setting. The goal is to equip children with learning differences to succeed as independent learners.

We would like to offer you the opportunity to participate in our Golf Classic. Your support enables Hope Springs to offset expenses not covered by tuition, continue training for our teachers and apply funds toward our building needs. Most importantly, your support allows our children to continue their learning experience in an environment that values each student as an individual and helps them, on a daily basis, to realize their true potential.

For more information about our school, please visit us online at our website:
